

## Payroll

### Comprehensive payroll processing

Keeping up to date with complex Payroll issues can be a full-time task. Opera II Payroll provides a time-saving and comprehensive solution. With full Inland Revenue accreditation, it is a product that continues to evolve and embrace both the demands of Government and business requirements. It has the ability to record and automatically calculate SSP, SMP, SPP and Attachment Orders, reducing administration time and potential for error. Historical pay details allow a full view of the employees' salary costs, and pension scheme processing and variable AVCs allow flexibility in the options you can offer your employees.

### Fulfilling your statutory reporting requirements

Payroll produces statutory year-end P35, P14 and P60 forms and caters for automated Tax Credits and Student Loans. Moreover, Pegasus Opera II Payroll has gained approval from the Inland Revenue for Electronic Exchange of End of Year data. The eSubmission Utility provided with Payroll will ensure that your Payroll, P35 and P14 information can be sent securely over the internet, saving you time and stationery costs.

Employees can be paid directly into their bank accounts electronically via BACS, reducing payment processing time and cost. Payslip images and period summaries are held for up to 99 periods, with reprint facility from past periods.

- Weekly, 2-weekly, 4-weekly and monthly pay periods within the same company
- Statutory year-end P35, P14 and P60 forms produced, including a sealed laser P60 for internet submission
- Fully automated SSP, SMP and SPP calculations
- Produces statutory P45 forms
- Caters for Holidays and Leavers
- All pension schemes catered for
- Definable cheques and payslips
- Extensive defined reports
- P32 Processing and Reporting
- Percentage variable AVCs
